Rubi Rajbanshi
Consultant, Terrascope Consulting
NSAC Board Member

Rubi Rajbanshi has over a decade's worth experience in sustainability reporting, carbon footprint analysis, waste and recycling, air quality, life cycle assessments, clean cities, and transportation.

She spent a formative part of her career at the Port Authority of New York & New Jersey, serving as the Sustainability Manager for a transportation agency responsible for some of the largest airport, port, rail, and real estate networks in the U.S. In her capacity, Rubi worked on numerous projects to reduce GHG emissions including waste reduction and recycling strategies, and guiding the agency through carbon offset purchases from waste to energy projects. She has since moved to California, where she worked on air quality and transportation issues at local air districts and municipalities.

Rubi has worked on a variety of projects within the sustainability field, with a focus on analysis and strategy. From assessing product end of life opportunities to developing strategies for sustainability reporting, she is able understand new technologies and strategies for circular economies. Rubi has also lent her expertise to contribute to publications such as wastedive.com, and has been profiled at Cre8 Change Now. Rubi holds a Bachelors of Science in Chemical Engineering from MIT, a Masters Degree in Environmental Engineering from Northwestern University, and lives in Santa Barbara with her husband and three young children.
